Innovative connect and control systems...at your fingertips

Nexus Endoscopy Module enables clinicians to quickly and efficiently record the details of every endoscopy procedure.

Standard templates are available for:

- Bronchoscopy
- Colonoscopy
- Enteroscopy
- ERCP
- EUS
- Flexible Sigmoidoscopy
- OGD

Unlike other systems, amend the templates supplied or even **Create New Templates** using Nexus Template Guru.

Use pre-populated templates to free clinicians from repetitive data entry and minimise typed input and errors.

Easily capture and store multiple patient images.

Apply intuitive point and click technology to provide immediate onscreen feedback as the patient report is completed.

Take advantage of user-definable mail merge letter templates to make it simple to create Patient and GP letters.

Use multiple built in reports and our unique and innovative flexible search facility to easily access procedure data for reporting and research.

Export data to systems such as MS Excel for further manipulation and interrogation.

Integrate Nexus Endoscopy seamlessly with other Nexus Clinical Information Systems including Patient Choice and Booking, Theatre, Resource Manager and Sterile Services.

Nexus Theatre

✓ Nexus Theatre, part of Newgate's "Nexus" family is a true, state-of-the-art, touchscreen, theatre management system providing high quality theatre information to support clinical and managerial activities alike.
